

IPC 101: INTERNATIONAL PLUMBING CODE ESSENTIALS – PART I, II, III
GROUP TRAINING
MAY 15, 16, AND 17, 2012

LOWER PAXTON TOWNSHIP
CONFERENCE ROOMS A&B
425 PRINCE STREET
HARRISBURG, PA

IPC 101 is designed for code officials, inspectors, installers and contractors, but open to any interested party. This three-part course provides an overview of the key provisions of the International Plumbing Code (IPC) and the plumbing elements of the ICC/ANSI A117.1.

Part I (Day 1-May 15) of this course, you will be more knowledgeable about IPC requirements related to definitions; general regulations; fixtures, faucets and fixture fittings; and water heaters.

Part II (Day 2-May 16) of this course, you will be more knowledgeable about IPC requirements related to water supply and distribution, sanitary drainage; calculate drainage fixture units; and indirect/special waste.

Part III (Day 3-May 17) of this course, you will be more knowledgeable about IPC requirements related to vents; traps, interceptors and separators; storm drainage; and special piping and storage systems.

Price includes course instruction, materials, and lunch.

Code books are not available for sale at the course.

Required materials: Participants required to provide 2009 International Plumbing Code and a standard calculator.

To purchase a copy of this code, contact PCCA at 717-763-0930.
